

SZYMON STEFANSKI

SOFTWARE ENGINEER

szymonstefanski1@gmail.com | [linkedin.com/in/szymon-stefanski](https://www.linkedin.com/in/szymon-stefanski) | github.com/Szymon-Stefanski

Motivated Computer Science student (Year 4) with hands-on commercial experience in building web applications. Proficient in Python and databases, with a strong foundation in software engineering principles. Dedicated to writing clean, maintainable code and thriving in agile team settings. Eager to apply my technical expertise and grow as software engineer.

TECH STACK

Python, SQL, Scikit-learn, Pytorch, JavaScript, HTML, CSS, Robot Framework, Git, Docker, Linux, CI/CD, RestAPI

EXPERIENCE

NewLevelSport: Web Specialist

06/2025 - 01/2026

- Implemented new features for the newlevelsport.pl platform with a focus on Responsive Web Design (RWD), significantly improving project scalability and cross-device compatibility.
- Optimized frontend performance by implementing modern image formats, resulting in a measurable reduction in page load times.
- Leveraged Google Analytics to drive design and development decisions, optimizing the user journey based on real-time traffic data and behavior analysis.
- Ensured system continuity and high availability by actively managing backups and performing critical updates within the production environment.

PROJECTS

www.szymonstefanski.com | JavaScript, HTML, CSS | <https://github.com/Szymon-Stefanski/www.szymonstefanski.com>

- Designed a responsive personal portfolio website using HTML, CSS, and JavaScript.
- Deployed and publicly hosted the project using CI/CD pipelines for continuous maintenance and content updates.

Diabetes Risk Calculator | Python, Scikit-Learn, Streamlit, Pytest | <https://github.com/Szymon-Stefanski/DiabetesRiskCalculator>

- Developed a web application in Python (Flask) for fetching and presenting real-time currency exchange rates.
- Developed automated functional tests using Robot Framework to ensure application reliability.

University Database Project | SQL, PL/SQL, utPL/SQL | https://github.com/Szymon-Stefanski/university_database_project

- Designed a relational database in Oracle Database for university data management.
- Developed PL/SQL procedures and functions and implemented unit tests using the utPL/SQL framework.

EDUCATION

Polish-Japanese Academy of Information Technology

4th Year

Computer Science

CERTS

Oracle: Oracle Database SQL Certified Associate, Oracle Cloud Infrastructure 2024 Certified Foundations Associate

RedHat: Getting Started with Linux Fundamentals (**RH104**), Red Hat System Administration I & II (**RH124, RH134**)

CISCO: CCNAv7: Introduction to Networks

LANGUAGES

English – B2

I agree to the processing of personal data provided in this document for realising the recruitment process pursuant to the Personal Data Protection Act of 10 May 2018 (Journal of Laws 2018, item 1000) and in agreement with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation).
